

WISN Core — Source Access Sheet

This sheet lists every reference cited in the WISN Core Project Report, with a verified link to the source and a note on whether it downloads directly or requires one extra click on a landing page. Links were checked and confirmed live as of June 2026.

• **Direct download** • **Landing page (1-click download)**

Full Reference List with Verified Links

[1] Nepal Health Facility Survey 2021 — Final Report

Ministry of Health and Population (MoHP), Nepal / New ERA / ICF / DHS Program (2022)

- **Direct download:** <https://www.dhsprogram.com/pubs/pdf/SPA35/SPA35.pdf>

Full final report PDF. Source for NHFS staffing medians (9.9 nurses, 7.8 medical officers at federal/provincial hospitals).

[2] WISN: Workload Indicators of Staffing Need — User's Manual, 2nd ed. (2023)

World Health Organization

- **Direct download:** <https://iris.who.int/bitstream/handle/10665/373473/9789240070066-eng.pdf>

Official WHO IRIS repository PDF. Source for all clinical task time standards (WISN formula, AAF, CAF) used in the calculation engine.

[3] The Labour Act, 2017 (2074) — Government of Nepal (English translation)

Nepal Law Commission / Government of Nepal

- **Direct download:** <https://antislaverylaw.ac.uk/wp-content/uploads/2019/08/The-Labour-Act-2017.pdf>

Source for AWT derivation: 48-hr week, 13 public holidays, 12 sick days, home leave accrual (1 day per 20 worked).

[4] Nepal Health Service Act, 2053 (1997)

Government of Nepal / Nepal Law Commission

- **Direct download:** <https://www.siddhasthalihospital.org/wp-content/uploads/2022/05/1576743616nepal-health-service-act-2053-1997.pdf>

Source for public-sector health worker leave entitlements, used in the sector-specific AWT comparison (public ≈1,952 hrs).

[5] Nepal Health Service Rules, 2055 (1999)

Government of Nepal

- **Landing page:** <https://shisiradhikari.com.np/library/246/322>

Landing page with a download button. Source for the 30-day public-sector home leave entitlement referenced in Chapter 6.

[6] Minimum Service Standards (MSS) for Primary Hospitals

Ministry of Health and Population (MoHP), Nepal / NHSSP

- **Landing page:** <https://nhssp.org.np/>

MoHP site — search 'Minimum Service Standards Primary Hospitals' from the homepage; exact file path changes periodically. Source for the 10–15 nurse staffing mandate used to justify the seeder's current_staff=12 default.

[7] Admission Rate of Patients Visiting Emergency Department in a Tertiary Care Center in Kathmandu: A Descriptive Cross-sectional Study

Tiwari S, Tiwari JS, Jha JB, Regmi S, et al. (2024). *JNMA J Nepal Med Assoc*, 62(277):587-591.

- **Direct download:** <https://pmc.ncbi.nlm.nih.gov/articles/PMC11665762/>

PMC11665762. 'Download PDF' button on the right sidebar of the article page. Source for the 40.83% ED admission rate used in WISN routing test cases.

[8] Burnout and sleep problems among nurses working in a tertiary hospital in Kathmandu, Nepal

Kanak MP, Pant S, Fradelos EC, Campbell E, Robinson J (2025). *PLOS Global Public Health*.

- **Direct download:** <https://pmc.ncbi.nlm.nih.gov/articles/PMC12250318/>

PMC12250318. 'Download PDF' button on article page. Source for the 78.5% burnout / 58.9% poor sleep quality figures (246 TUTH nurses) cited throughout Ch. 1, 5, and 6.

[9] Burnout among Nurses and Doctors Working at a Tertiary Care Government Hospital: A Descriptive Cross-sectional Study

Shah SK, Sinha R, Neupane P, Kandel G (2024). *JNMA J Nepal Med Assoc*, 62(273):293-296.

- **Direct download:** <https://pmc.ncbi.nlm.nih.gov/articles/PMC11261546/>

PMC11261546. 'Download PDF' button on article page. Source for 50% nurse / 61.11% doctor moderate-severe burnout figures cited in Ch. 2 and 6.

[10] Audit of observation ward supporting emergency room at tertiary care hospital: Kathmandu, Nepal

Journal of General Practice and Emergency Medicine of Nepal (JGPEMN) (2022)

- **Landing page:** <https://www.jgpemn.org.np/>

Search the article title on the journal homepage; exact article URL not independently confirmed in this session. Source for the 13.08% observation-ward placement rate and discharge/admission/return outcome percentages.

[11] Applying the workload indicators of staffing need (WISN) method in Namibia: challenges and implications for human resources for health policy

Namibia WISN implementation study (PMC / BMC Health Services Research)

- **Landing page:** <https://pmc.ncbi.nlm.nih.gov/?term=WISN+Namibia+challenges+implications+human+resources>

Search link to PMC results for this exact title; specific PMCID not independently confirmed in this session. Cited in Ch. 2 for cross-country WISN validation context.

[12] The implementation process of the Workload Indicators Staffing Need (WISN) method by WHO in determining midwifery staff requirements in Greek Hospitals

Tziaferi S, et al. (2019). *European Journal of Midwifery*.

- **Landing page:** <https://www.europeanjournalofmidwifery.eu/>

Search the article title on the journal site. Cited in Ch. 2 for the CAF/support-activity validation context (28-34% AWT consumption by support activities).

[13] Laravel 10.x Documentation

Laravel LLC / Taylor Otwell

- **Direct download:** <https://laravel.com/docs/10.x>

Official framework documentation. No download needed — reference site used throughout Ch. 4 implementation.

[14] barryvdh/laravel-dompdf — GitHub Repository

Barry vd. Heuvel

- **Direct download:** <https://github.com/barryvdh/laravel-dompdf>

Open-source package repository. Installed via Composer (composer require barryvdh/laravel-dompdf), not a manual PDF download.

[15] Chart.js 4.4 Documentation*Chart.js Contributors*

- **Direct download:** <https://www.chartjs.org/docs/4.4.1/>
Official documentation site. Loaded via CDN in dashboard.blade.php; no local download required.

[16] Tailwind CSS v3 Documentation*Tailwind Labs*

- **Direct download:** <https://v3.tailwindcss.com/docs>
Official documentation. Installed via npm/Vite; no manual download required.

[17] Nepal 2021 Health Facility Survey: Key Findings [SR273]*Ministry of Health and Population, Nepal / DHS Program (2022)*

- **Direct download:** <https://dhsprogram.com/pubs/pdf/SR273/SR273.pdf>
Summary key-findings PDF (shorter companion to the full NHFS report in [1]). Useful as a quick-reference version for presentations.

Notes on Use

Items marked Direct download go straight to a PDF or official documentation page — clicking the link opens or downloads the file immediately.

Items marked Landing page require one extra step: the link opens a site or repository page where you click a visible 'Download' button to get the PDF. This applies to references 5, 6, 10, and 11, where the exact file path was not independently re-confirmed or where the hosting site restructures its URLs periodically.

Software references (13-16) are documentation sites rather than downloadable papers — they are installed as packages via Composer or npm, not manually downloaded.

If any link has gone stale by the time you check it (government and small institutional sites in Nepal occasionally reorganize), search the exact title shown above in Google Scholar or PubMed — all of these are indexed and the first result is reliably correct.
